Food waste disposer 723

Motor.....1,1KW

Total capacity.....1,1KW

=====

Marine Execution

Installation : Under-sink-model !

Capacity : 200 Kg/h

Motor : 1,1 kW

Running direct. : 2 ways

Water consume : 6 Liters/min.

Water control : Automatic solenoid valve
operation in conjunction
with motor.

Waste connect. : 54mm pipe.

- Constructed for use on ships.
- Control box included.
- Built in motor protection.
- Smoothly running.
- Sufficient for 50-75 persons.

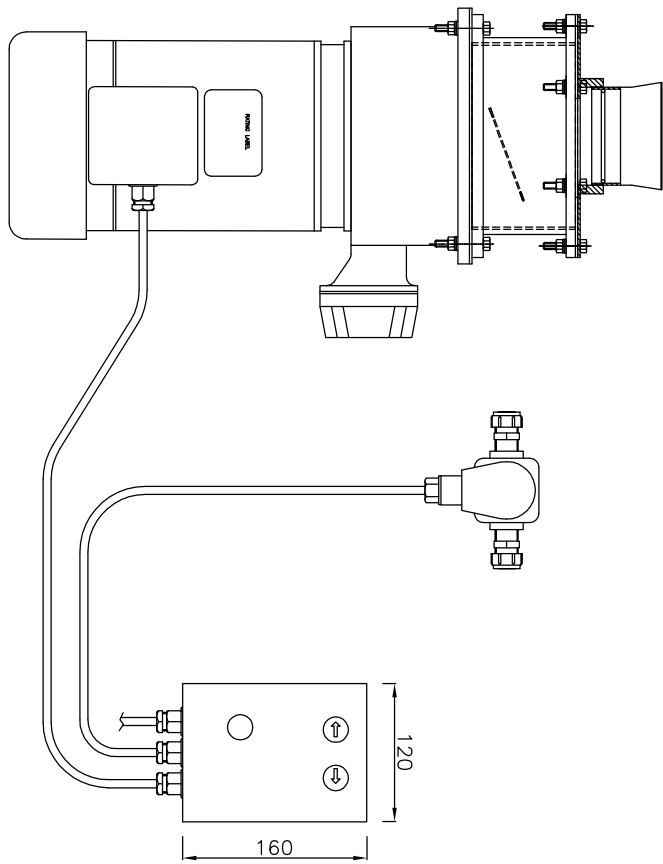

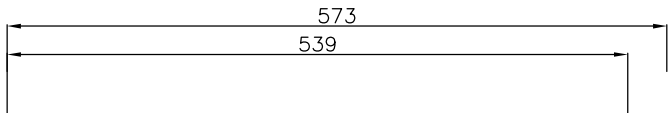

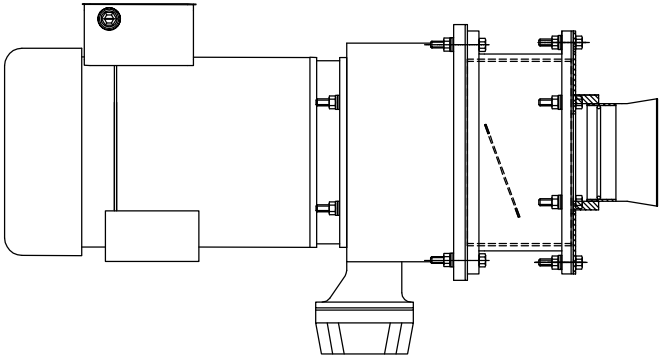

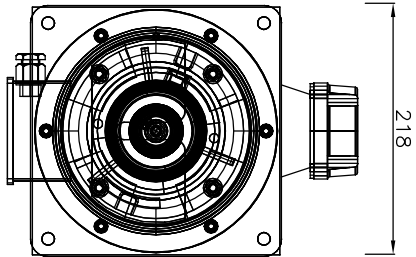

IMPORTANT:

- The food waste disposer has a motor of 1,1KW. Thus this model has limits for what it can do.

Heavy bones should be cut up before they are put into the machine.

Control that ca. 6 l/m. of water are flowing through the machine by operation.
